

Maryland Health and Higher Educational Facilities Authority

2020 ANNUAL REPORT

Maryland Health and Higher Educational Facilities Authority

The Maryland Health and Higher Educational Facilities Authority believes that Maryland's health and educational institutions provide the foundation for our state's economy.

The mission of the Authority is to assist non-profit educational institutions and hospitals and related healthcare organizations, including continuing care institutions, in financing the construction and acquisition of capital projects. In the pursuit of this goal, the Authority strives to keep abreast of opportunities to reduce the cost of capital in order to meet the changing needs of our borrowing institutions and assure their strength as vital assets of the State.

The Authority is empowered to perform a variety of functions on behalf of its constituents, including the following:

- *Issuing fixed and variable rate bonds and notes, including commercial paper.*
- *Financing and refinancing construction, renovation and equipping of facilities for nonprofit hospitals, colleges, universities, non-collegiate schools, retirement communities, nursing homes, assisted living facilities and other long-term care facilities.*
- *Entering into leases and subleases of projects and contracts for the operation and management of projects for these institutions.*
- *Making loans to participating institutions to finance projects, including hospital facilities, ambulatory care centers and other outpatient facilities, parking garages, research facilities, academic buildings, dormitories, dining halls, libraries and athletic facilities.*
- *Establishing and administering pooled loan programs to reduce financing costs and provide enhanced access to the capital markets.*

As an instrumentality of the State of Maryland providing financing for key institutional projects, the Authority is proud of its role in improving the health and wellbeing of the residents of our State.

AUTHORITY MEMBERS

ARNOLD WILLIAMS, *Chairman*

Independent Auditor's Report

To the Authority Members
Maryland Health and Higher Educational Facilities Authority

Report on the Financial Statements

We have audited the accompanying financial statements of Maryland Health and Higher Educational Facilities Authority (the "Authority"), which comprise the balance sheets as of June 30, 2020 and 2019, and the related statements of revenues, expenses and changes in net position and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Authority as of June 30, 2020 and 2019, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Schedules of Required Pension Related Supplementary Information on pages 7 through 14, 37 and 38 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplementary information on pages 39 through 52 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to underlying accounting and other records used to prepare the financial statements. The information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Baltimore, Maryland
September 2, 2020

Introduction

This discussion and analysis of the financial performance of the Maryland Health and Higher Educational Facilities Authority (the "Authority") is supplementary information required by the Governmental Accounting Standards Board. It introduces the basic financial statements and provides a brief overview of the Authority's financial activities. It should be read in conjunction with the financial statements that follow this discussion.

The Authority is an instrumentality of the State of Maryland which assists non-profit educational institutions and hospitals and related healthcare organizations in financing the acquisition and construction of capital projects.

The Authority does not receive any appropriations from the State of Maryland and is funded entirely from fees charged to participating borrowers and interest earnings on investments.

Overview of the Financial Statements

The three basic statements presented within the financial statements are as follows:

- **Balance Sheet** - This statement presents information reflecting the Authority's assets, deferred outflows of resources, liabilities, deferred inflows of resources and net position. Net position is equal to total assets and deferred outflows of resources less total liabilities and deferred inflows of resources.
- **Statement of Revenues, Expenses and Changes in Net Position** - This statement reflects the operating revenues and expenses, as well as non-operating revenues and expenses for the fiscal year. Operating revenue is generated from annual administrative fees and application fees charged to borrowers. Operating expense includes staff salaries, professional fees and other expenses. The change in net position is similar to net profit or loss for a business enterprise.
- **Statement of Cash Flows** - The statement of cash flows is presented using the direct method of reporting which reflects cash flows from operating, financing and investing activities. Cash collections and payments are reflected in this statement to arrive at the net increase or decrease in cash for the fiscal year.

Summary of Activities

- During fiscal year 2020 the Authority issued and delivered 23 bond issues totaling approximately \$784 million. The approximately \$556 million increase from the total issued in fiscal year 2019 is primarily due to an increase in new project funding and institutions refunding debt to achieve debt service savings.
- Operating revenues increased by approximately \$7,000 due primarily to an increase in application fees. The Authority funds its operations using a combination of administrative fees, application fees and non-operating investment income. Administrative fees may be set at a maximum of one tenth of one percent of the par amount of debt issued. The application fee is currently \$5,000. In fiscal year 2020, the Authority continued to waive 75% of the administrative fees chargeable to borrowing institutions for financings that were in place prior to fiscal year 2008 and 70% for financings completed in fiscal year 2008 and after.
- Operating expenses increased by approximately \$262,000 due primarily to a \$142,000 increase in salaries expense due to the overlap in both the Executive Director and Chief Financial Officer positions to ensure successful transitions. There was also an \$87,000 increase in professional fees for financial advisor services resulting from an increase in the volume of public bond issues by the Authority in fiscal year 2020.
- The Authority had approximately \$8.3 billion and \$8.9 billion of conduit debt outstanding at June 30, 2020 and June 30, 2019, respectively. A schedule of debt outstanding is included in the additional information that accompanies these financial statements. All bonds and notes issued by the Authority are limited obligations payable solely from amounts payable by participating institutions under the loan or lease agreements executed in connection with the issuance of the bonds or revenues of the project financed. The Authority has no outstanding debt constituting a general obligation of the Authority or a pledge of its faith and credit.
- During fiscal year 2020, the Authority approved a Community Outreach Program ("Program"). The purpose of the Program is to assist nonprofit health and educational institutions in obtaining financing for facilities in underserved Maryland areas. The Program's guidelines stipulate that the support would be limited to \$500,000 per eligible institution. The Program's assistance is not intended to be a grant but rather could be structured as a loan, guaranty or debt service reserve fund to facilitate financing with at least one other financial partner.

Increase in Net Position	1,492	2,006
Net position, beginning of year	<u>28,902</u>	<u>26,896</u>
Net position, end of year	<u>\$30,394</u>	<u>\$28,902</u>

Summary of Financings

During fiscal years 2020 and 2019, the Authority issued:

	<u>2020</u>	<u>2019</u>
Public Issues	\$454,010,000	\$75,555,000
Private Placements & Limited Offerings	329,722,565	152,717,325
	<u>\$783,732,565</u>	<u>\$228,272,325</u>

The following is a list of bonds issued during fiscal year 2020:

HEALTHCARE FINANCINGS:

\$190,955,000 UPMC Issue, Series 2020B (University of Pittsburg Medical Center)

A public offering to refinance the outstanding UPMC Taxable Notes, Series 2020 issued in connection with UPMC's acquisition of UPMC Maryland Corporation (formerly known as Western Maryland Health System Corporation).

\$95,995,000 Peninsula Regional Health System Issue, Series 2020

A public offering to finance the acquisition of Nanticoke Memorial Hospital, the construction of a freestanding medical facility related to McCready Foundation, a pediatric behavioral health unit and various minor equipment and renovation projects at Peninsula Regional Medical Center.

\$62,645,000 Frederick Health System Issue, Series 2020

A public offering to finance capital expenditures related to the construction of its critical care pavilion; computer software and related equipment; the renovation of inpatient care units at the main hospital; installation of a nurse call system; and acquisition of Imaging 3T medical equipment and the refinancing of the Authority's Frederick Memorial Hospital Issue (2017A) bonds.

RETIREMENT COMMUNITY FINANCINGS:

\$35,639,000 Springwell Senior Living Issue (2019) – Taxable

A private placement to refinance outstanding debt and finance additional capital expenditures.

\$20,000,000 Roland Park Place Issue (2019A)

\$40,000,000 Roland Park Place Issue (2019B)

A private placement to finance Phase 2 of its two-phased repositioning strategy, which consists of the construction of a new 8-story building and certain other renovations to the campus and existing facilities.

\$87,110,000 Integrate Issue (2020A)

\$12,195,000 Integrate Issue (2020B) – Taxable

A private placement to refund certain outstanding taxable and tax-exempt debt and to finance certain capital improvements at three of its retirement communities.

NON-COLLEGIATE SCHOOL FINANCINGS:

\$5,000,000 St. Paul's Schools Issue (2019A)
\$20,000,000 St. Paul's Schools Issue (2019B)

A private placement to finance the construction of a new Upper School Classroom Building and other related improvements and capital expenditures.

\$8,600,000 Beth Tfiloh Dahan Community School Issue (2019)

A private placement to refund the Authority's Revenue Bond, Beth Tfiloh Dahan Community School Issue (2007).

\$20,712,565 Maryland School for the Blind Issue (2019)

A private placement to refinance outstanding debt and to finance renovation and equipping of the school's existing facilities.

\$20,500,000 The SEED School of Maryland Issue (2019)

A private placement to refund the Authority's Revenue Bond, The SEED School of Maryland Issue (2010) and to finance additional capital improvements.

\$11,716,000 Patterson Park Public Charter School Issue (2019)

A private placement to refund the Authority's Revenue Bonds, Patterson Park Public Charter School Issue, Series 2010A.

\$3,750,000 Bishop McNamara High School Issue (2019A)
\$8,000,000 Bishop McNamara High School Issue (2019B)

A private placement to finance the costs associated with the construction of a new science and innovation center.

\$14,000,000 The Boys' Latin School of Maryland Issue (2020A)
\$12,000,000 The Boys' Latin School of Maryland Issue (2020B)

A private placement to refinance the Authority's Revenue Bonds, The Boys' Latin School of Maryland Issue (2009) and to finance land acquisition and renovations and equipping of building located on such land for use as a dormitory.

\$25,000,000 Legends Charter School Issue, Series 2020A
\$1,000,000 Legends Charter School Issue, Series 2020B - Taxable

A private placement to finance the acquisition of a building and its renovation to house the Legends Charter School and the site thereon.

Maryland Health and Higher Educational Facilities Authority
Management's Discussion and Analysis

\$10,500,000 The Norwood School Issue (2020)

A private placement to finance the construction of a new Lower School Connector Building which will be named the Marriott Early Childhood Building.

COLLEGIATE SCHOOL FINANCINGS:

\$43,640,000 Loyola University Maryland Issue, Series 2019A

\$34,775,000 Loyola University Maryland Issue, Series 2019B - Taxable

A public offering to refund the Authority's Revenue Bonds, Loyola University Issue, Series 2012A and Loyola University Issue (2012B) and to finance renovation and infrastructure upgrades and an addition to an existing building to include the Center for Innovation and Collaborative Learning.

NOTE 1: ORGANIZATION AND ACCOUNTING POLICIES

Organization

The Maryland Health and Higher Educational Facilities Authority (the "Authority") was established to assist non-profit educational institutions, hospitals and related healthcare institutions in the financing and refinancing of projects authorized by the Authority's enabling legislation. Neither the State of Maryland, nor any political subdivision thereof, nor the Authority shall be obligated to pay principal or interest on bonds or notes issued by the Authority except from payments from participating institutions and revenues of the related projects. Neither the faith and credit nor the taxing power of the State of Maryland, of any political subdivision thereof or of the Authority is pledged to the payment of the principal or interest on bonds or notes outstanding. The Authority is exempt from federal and state income taxes. The Authority has no taxing power.

Accounting Policies

Reporting Entity – The Authority's reporting entity has been defined in accordance with Governmental Accounting Standards Board ("GASB") Statement 34. The financial statements include all operations for which the Authority is financially accountable.

Basis of Presentation, Revenue and Expense Recognition – The Authority follows GASB guidance for proprietary fund accounting and financial reporting. As such, the accompanying financial statements are prepared on the accrual basis of accounting where revenues are recognized when earned and expenses are recorded when incurred. The Authority reports its financial activities by applying Standards of Governmental Accounting and Financial Reporting as promulgated by the GASB. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the proprietary fund's principal ongoing operations. The principal operating revenues of the Authority are annual administrative fees and application fees charged to borrowers. Operating expenses for the Authority includes staff salaries, professional fees and other expenses. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Cash and Cash Equivalents – Cash and cash equivalents consist of short term, highly liquid investments that are readily convertible to known amounts of cash and have original maturities of three months or less. Cash and cash equivalents are carried at cost which approximates fair value. Custodial credit risk for deposits is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. As of June 30, 2020, all of the Authority's deposits were either covered by federal depository insurance or were covered by collateral held by the Authority's agent in the Authority's name. The amount of the Authority's deposits collateralized at June 30, 2020 was \$1,286,784.

Maryland Health and Higher Educational Facilities Authority
Notes to Financial Statements
June 30, 2020 and June 30, 2019

Investments – The Authority’s investment objective is to invest in a manner which will provide the highest return with the maximum security while meeting cash flow needs. Allowable investments are governed by the Authority’s investment policy which is reviewed annually with the Authority Members at one of its scheduled monthly meetings. Permissible investments under the investment policy include U.S. Treasury obligations; obligations of federal agencies and instrumentalities; repurchase agreements for U.S. Treasury obligations and obligations of federal agencies and instrumentalities; and money market funds operated in accordance with Rule 2a-7 of the Investment Company Act of 1940. Investments are reported at fair value with net unrealized gains and losses reported as non-operating revenue in the statement of revenues, expenses and changes in net position. Fair values of investment securities are determined according to prices as furnished by an independent pricing service, except that fixed income securities with remaining maturities of less than 60 days at the time of purchase (e.g., money market funds) are valued at amortized cost provided such amount approximates fair value. Interest income is accrued on coupon securities from the last coupon date or purchase date and for discount securities (e.g., U.S. Treasury Bills) on the effective yield method. Realized gains and losses are recorded on the specific identification method and are computed as the difference between the proceeds of the sale and the original cost of the investments sold. Investments are purchased to mature based on cash flow needs; however, investments may be liquidated in the event there are unanticipated cash flow requirements.

Net Position – Net position represents the residual interest in the Authority’s assets and deferred outflows of resources after liabilities and deferred inflows of resources are deducted. For external reporting purposes, net position is classified in the following categories:

Net investment in capital assets – capital assets, net of accumulated depreciation. There is no outstanding debt attributable to the acquisition, construction or improvement of the assets.

Unrestricted net position – net position that is not subjected to externally imposed stipulations. Unrestricted net position may be designated for specific purposes by action of management or the Authority or may otherwise be limited by contractual agreements with outside parties. The Authority’s unrestricted net position includes an internal designation for operations, maintained at two times the annual operating expenses of the Authority. On June 30, 2020 and June 30, 2019, the designation for operations was \$3,954,000 and \$3,430,000, respectively. Beginning in fiscal year 2020, the Authority internally designated an amount for its Community Outreach Program. The Community Outreach Program’s guidelines stipulate an amount that may not exceed 20% of the total net position available for contingencies. After the designation for operations, the total net position available for contingencies was \$26,422,000 as of June 30, 2020, of which \$5,284,000 was designated for the Community Outreach Program. The remaining unrestricted net position designated for contingencies as of June 30, 2020 and June 30, 2019, was \$21,138,000 and \$25,457,000, respectively. This designation is subject to a limitation equal to 1% of total

Maryland Health and Higher Educational Facilities Authority
Notes to Financial Statements
June 30, 2020 and June 30, 2019

bonds outstanding. These amounts do not exceed the limitations for June 30, 2020 and June 30, 2019, which were \$83,396,000 and \$89,039,000, respectively.

Capital Assets – Capital assets are recorded at cost and defined as assets with an individual cost of \$1,000 or more and an estimated useful life of more than one year. Depreciation is calculated on a straight-line basis over the asset's estimated useful life.

Estimated useful lives are as follows:

- | | |
|-------------------------------------|---------------|
| • Furniture, fixtures and equipment | 5 to 10 years |
| • Computer equipment and software | 3 to 5 years |
| • Office equipment | 5 to 10 years |
| • Leasehold improvements | 4 to 7 years |

Compensated Absences – Vacation benefits are earned by employees of the Authority based on time in service. The right to such vacation benefit is vested and recorded as a liability for amounts due to employees for future absences. Sick leave is also earned and accumulated by employees. However, sick leave does not vest and is not paid unless sickness causes the employee to be absent.

Office Rent – Office rent is recognized on a straight-line method under which contractual rent increases are recognized over the lease term. Office rent recorded on the straight-line method in excess of the rents billed is recognized as deferred rent payable and is included in accrued rent on the balance sheets.

Use of Estimates – The preparation of these financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management, where necessary, to make estimates and assumptions that affect the amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Accounting and Financial Reporting for Pensions – For purposes of measuring the Authority's net pension liability, pension expense and deferred outflows of resources and deferred inflows of resources related to pensions, the Authority relies on information provided by the Maryland State Retirement and Pension System as to the Authority's proportionate share. Refer to Note 6.

Reclassifications

Reclassifications have been made to the prior year balances to conform to the current year presentation.

Maryland Health and Higher Educational Facilities Authority
Notes to Financial Statements
June 30, 2020 and June 30, 2019

NOTE 2: FAIR VALUE MEASUREMENTS

Fair Value - The Authority has adopted GASB Statement No. 72 – Fair Value Measurement and Application. This statement establishes a hierarchy of inputs to valuation techniques used to measure fair value:

- Level 1 – quoted market prices in active markets
- Level 2 – inputs other than quoted market prices that are observable either directly or indirectly
- Level 3 – unobservable inputs

The Authority has investments in securities that are measured at fair value on a recurring basis in the financial statements. The Authority uses a three level hierarchy for determining fair value and a financial asset or liability classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement. The fair value of these financial assets was determined using Level 2 inputs (inputs other than quoted market prices that are observable either directly or indirectly) as of June 30, 2020 and June 30, 2019. The following tables present the financial assets that the Authority measured at fair value (in thousands of dollars).

June 30, 2020	Level 1	Level 2	Level 3	Total
Obligations of U. S. Treasury	\$ -	\$ 3,061	\$ -	\$ 3,061
Obligations of U.S. government agencies and instrumentalities	-	25,945	-	25,945
Money market fund	300	-	-	300
Total	\$300	\$29,006	\$ -	\$29,306

June 30, 2019	Level 1	Level 2	Level 3	Total
Obligation of U.S. Treasury	\$ -	\$ 3,061	\$ -	\$ 3,061
Obligations of U.S. government agencies and instrumentalities	-	22,781	-	22,781
Money market fund	2,722	-	-	2,722
Total	\$2,722	\$25,842	\$ -	\$28,564

Notes to Financial Statements
June 30, 2020 and June 30, 2019

NOTE 3: INVESTMENTS

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As a means of limiting its exposure to fair value losses from rising interest rates, the Authority’s Investment Policy requires that the maturities of the investment portfolio be scheduled to meet the cash requirements for ongoing operations.

As of June 30, 2020 and June 30, 2019, the amortized cost and fair value of investments were as follows (in thousands of dollars):

	AMORTIZED COST	GROSS UNREALIZED GAINS	GROSS UNREALIZED LOSSES	FAIR VALUE
June 30, 2020				
Obligations of U. S. Treasury	\$ 3,047	\$14	\$ -	\$ 3,061
Obligations of U.S. government agencies and instrumentalities	25,938	7	-	25,945
Money market fund	300	-	-	300
Total	\$29,285	\$21	\$ -	\$29,306

	AMORTIZED COST	GROSS UNREALIZED GAINS	GROSS UNREALIZED LOSSES	FAIR VALUE
June 30, 2019				
Obligations of U. S. Treasury	\$ 3,045	\$16	\$ -	\$ 3,061
Obligations of U.S. government agencies and instrumentalities	22,809	18	(46)	22,781
Money market fund	2,722	-	-	2,722
Total	\$28,576	\$34	\$(46)	\$28,564

Maryland Health and Higher Educational Facilities Authority
Notes to Financial Statements
June 30, 2020 and June 30, 2019

The amortized cost and fair value of investments at June 30, 2020 and June 30, 2019, by contractual maturity, are shown below (in thousands of dollars). Expected maturities will differ from contractual maturities because issuers may have the right to call or prepay obligations with or without penalties.

June 30, 2020	AMORTIZED COST	FAIR VALUE
Due in one year or less	\$ 4,087	\$ 4,052
Due after one year through five years	25,248	25,254
	<u>\$29,285</u>	<u>\$29,306</u>

June 30, 2019	AMORTIZED COST	FAIR VALUE
Due in one year or less	\$12,440	\$12,433
Due after one year through five years	16,136	16,131
	<u>\$28,576</u>	<u>\$28,564</u>

Custodial Credit Risk – Custodial credit risk is the risk that in the event of a bank or other counterparty failure, the Authority will not be able to recover its deposits or the value of its collateral securities that are in the possession of an outside party. As of June 30, 2020 and June 30, 2019, the Authority’s investments were not subject to custodial credit risk under GASB Statement No. 40. The Authority’s investments are held under a safekeeping agreement, kept separate from the assets of the bank and from other trust accounts and are held in the Authority’s name.

Credit Risk and Concentration of Credit Risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Authority’s investment policy is to invest in a manner which will provide the highest return with the maximum security while meeting cash flow needs. Permissible investments currently utilized include U.S. Treasury obligations; obligations of federal agencies and instrumentalities; repurchase agreements for U.S. Treasury obligations and obligations of federal agencies and instrumentalities; and money market funds operated in accordance with Rule 2a-7 of the Investment Company Act of 1940 and rated in the highest rating category of a nationally recognized statistical rating organization.

Total	\$28,564	100.00%

Maryland Health and Higher Educational Facilities Authority
Notes to Financial Statements
June 30, 2020 and June 30, 2019

As of June 30, 2020 and June 30, 2019, the credit ratings by issuer were identical, as follows:

Asset	Rating	Rating Agency
Obligations of U.S. Government Agencies:		
Federal Farm Credit Banks	Aaa	Moody's
Federal Home Loan Mortgage Corporation	Aaa	Moody's
Federal Home Loan Banks	Aaa	Moody's
Federal National Mortgage Association	Aaa	Moody's
Money Market:		
Federated U.S. Government Money Market Fund	AAAm	S&P

NOTE 4: COMMITMENTS AND CONTINGENCIES

The Authority has a lease commitment for office space through June 30, 2027. The minimum rental commitment for office space for each of the next 5 years and thereafter is as follows:

2021	\$97,625
2022	99,584
2023	101,558
2024	103,572
2025	105,627
Thereafter	<u>217,583</u>
	\$725,549

For the years ended June 30, 2020 and 2019, rental payments required under the terms of the lease totaled \$74,011 and \$108,567, respectively.

In early 2020, an outbreak of a novel strain of coronavirus (COVID-19) emerged globally. As a result, events have occurred including mandates from federal, state and local authorities leading to an overall decline in economic activity. This could have a negative impact on the Authority's institutions' financial position, results of operations, and cash flows. The Authority is not able to reliably estimate the length or severity of this outbreak and the related financial impact.

Maryland Health and Higher Educational Facilities Authority
Notes to Financial Statements
June 30, 2020 and June 30, 2019

NOTE 5: CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2020 and June 30, 2019 consisted of the following (in thousands of dollars):

	<u>2020</u>	<u>2019</u>
Capital assets beginning of year	\$ 217	\$218
Additions	12	11
Retirements	(4)	(12)
Capital assets end of year	225	217
Accumulated depreciation end of year	(207)	(202)
Capital assets net of depreciation end of year	<u>\$ 18</u>	<u>\$ 15</u>

The Authority recognized \$8,584 and \$14,207 of depreciation expense during fiscal years 2020 and 2019, respectively.

NOTE 6: PENSION PLAN

Summary

The Authority has adopted GASB No. 68 – Accounting and Financial Reporting for Pensions (“GASB 68”). The Authority participates in the Maryland State Retirement and Pension System, (the “System”) and qualifies as a Participating Governmental Unit (“PGU”). The State Retirement Agency (the “Agency”) is the Plan administrator and fiduciary. GASB No. 68 requires that a PGU recognize its proportionate share of the System’s net pension liability (i.e., unfunded pension liability) and pension expense. The Authority’s proportionate share is based on total System contributions and approximated 0.0022% and 0.0024% as of the measurement dates of June 30, 2019 and 2018, respectively.

The Authority has adopted GASB No. 71 – Pension Transition for Contributions Made Subsequent to the Measurement Date-An Amendment of GASB No. 68. GASB No. 71, which is only applicable during the year GASB No. 68 was adopted, requires that contributions to the pension plan subsequent to the beginning measurement date be recognized as the beginning deferred outflow of resources.

The Authority’s employees contributed seven percent of their compensation during fiscal years 2020 and 2019 as stipulated by the System. The Authority contributed \$74,411 and \$44,865 to the System for fiscal years 2020 and 2019, respectively, which was actuarially determined based on statutory provisions. The Authority has also recognized in Pension Expense its proportionate share of the System’s deferred inflows of resources (an increase in Pension Expense) attributable to the changes in assumptions and the net difference between actual and expected experience and its proportionate share of the System’s deferred outflows of

Maryland Health and Higher Educational Facilities Authority
Notes to Financial Statements
June 30, 2020 and June 30, 2019

resources (a decrease in Pension Expense) attributable to the net difference between projected and actual investment earnings.

Basis of presentation and basis of accounting

1. Employers participating in the System's cost-sharing multiple-employer defined benefit plans are required to report pension information in their financial statements for fiscal periods beginning on or after June 15, 2014, in accordance with GASB Statement No. 68, Accounting and Financial Reporting for Pensions. The Schedule of Employer Allocations and Schedule of Pension Amounts by Employer (pension allocation schedules) provide employers with the required information for financial reporting. The System's financial statements are prepared on the accrual basis of accounting and are prepared in accordance with accounting principles generally accepted in the United States of America that apply to governmental accounting for fiduciary funds.
2. Actual employer contributions billed to participating government units for the years ended June 30, 2019 and 2018 were used as the basis for determining each employer's proportionate share of the collective pension amounts reported in the related Schedule of Employer Allocations. Because the State of Maryland contributed 100% of the actuarial determined contributions, there were no adjustments for the years ended June 30, 2019 and June 30, 2018.
3. The components of the calculation of the net pension liability for the System as of the measurement dates of June 30, 2019 and 2018, calculated in accordance with GASB Statement No. 67, are shown in the following table:

(Expressed in millions)

	Measurement Date <u>June 30, 2019</u>	Measurement Date <u>June 30, 2018</u>
Total Pension Liability	\$74,569.0	\$72,808.8
Less: Plan Fiduciary Net Position	<u>53,943.4</u>	<u>51,827.2</u>
Net Pension Liability	<u>\$20,625.6</u>	<u>\$20,981.6</u>
 Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	 <u>72.3%</u>	 <u>71.2%</u>

Maryland Health and Higher Educational Facilities Authority
Notes to Financial Statements
June 30, 2020 and June 30, 2019

Actuarial Assumptions

Assumption	Measurement Date June 30, 2019	Measurement Date June 30, 2018
Actuarial	Entry Age Normal	Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed	Level Percentage of Payroll, Closed
Inflation	2.65% General; 3.15% Wages	2.60% General; 3.10% Wages
Salary Increases	3.10% to 11.6%	3.20% to 9.10%

Investments

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return were adopted by the System’s Board after considering input from the investment consultant(s) and actuary(s). For each major asset class that is included in the System’s target asset allocation, these best estimates are summarized in the following table:

Maryland Health and Higher Educational Facilities Authority
Notes to Financial Statements
June 30, 2020 and June 30, 2019

Asset Class	June 30, 2019		June 30, 2018	
	Target Allocations	Long-Term Expected Real Rate of Return	Target Allocations	Long-Term Expected Real Rate of Return
Public Equity	37%	6.3%	37%	5.8%
Private Equity	13%	7.5%	13%	6.7%
Rate Sensitive/Fixed Income	19%	1.3%	19%	1.1%
Credit Opportunity	9%	3.9%	9%	3.6%
Real Assets	14%	4.5%	14%	4.8%
Absolute Return	8%	3.0%	8%	3.2%
Total	100%		100%	

The above was the asset allocation policy adopted by the System’s Board of Trustees and best estimate of geometric real rates of return for each major asset class as of June 30, 2019 and 2018, respectively.

Discount Rate

Discount rates of 7.40% and 7.45% were used to measure the total pension liability as of June 30, 2019 and 2018, respectively. The discount rates were based on the expected rates of return on pension plan investments of 7.40% and 7.45%, respectively. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability

The following presents the sensitivity of the System’s net pension liability to changes in the discount rates and the Authority’s proportionate share of the System’s net pension liability (expressed in thousands), calculated using discount rates of 7.40% and 7.45%, a discount rate that is 1-percentage point lower (i.e., 6.40%/6.45%) and a discount rate that is 1-percentage point higher (i.e., 8.40%/8.45%):

Pension Plan Description

Organization

The State Retirement Agency (the “Agency”) is the administrator of the System. The System was established by the State Personnel and Pensions Article of the Annotated Code of Maryland to provide retirement allowances and other benefits to State employees, teachers, police, judges, legislators, and employees of participating governmental units. Responsibility for the System’s administration and operation is vested in a 15-member Board of Trustees. The System is made up of two cost-sharing employer pools: the “State Pool” and the “Municipal Pool”. The “State Pool” consists of the State agencies, boards of education, community colleges, and libraries. The “Municipal Pool” consists of the participating governmental units that elected to join the System. Neither pool shares in each other’s actuarial liabilities, thus participating governmental units that elect to join the System (the “Municipal Pool”) share in the liabilities of the Municipal Pool only. The State of Maryland is the statutory guarantor for the payment of all pensions, annuities, retirement allowances, refunds, reserves, and other benefits of the System. The Agency is legally authorized to use all assets accumulated for the payment of benefits to pay such obligations to any plan member or beneficiary as defined by the terms of the plan. Consequently, the System is accounted for as a single plan as defined in Governmental Accounting Standards Board (GASB) Statement No. 67, “Financial Reporting for Pension Plans - An Amendment of GASB Statement No.25.” Additionally, the System is fiscally dependent on the State by virtue of the legislative and executive controls exercised with respect to its operations, policies, and administrative budget. Accordingly, the System is included in the State’s reporting entity and disclosed in its financial statements as a pension trust fund. The System is comprised of the Teachers’ Retirement and Pension Systems, Employees’ Retirement and Pension Systems, State Police Retirement System, Judges’ Retirement System, and the Law Enforcement Officers’ Pension System. The Authority’s employees participate in the Employees’ Retirement and Pension System.

Covered Members

On October 1, 1941, the Employees' Retirement System was established to provide retirement allowances and other benefits to State employees, elected and appointed officials and the employees of participating governmental units. Effective January 1, 1980, the Employees' Retirement System was essentially closed to new members and the Employees' Pension System was established. As a result, State employees (other than correctional officers) and employees of participating governmental units hired after December 31, 1979, became members of the Employees' Pension System as a condition of employment, while all State correctional officers and members of the Maryland General Assembly continue to be enrolled as members of the Employees' Retirement System. On or after January 1, 2005, an individual who is a member of the Employees' Retirement System may not transfer membership to the Employees' Pension System. Currently, more than 150 governmental units participate in the Employees' Retirement System.

Summary of Significant Plan Provisions

All plan benefits are specified by the State Personnel and Pensions Article of the Annotated Code of Maryland. For all individuals who were members of the System on or before June 30, 2011, pension allowances are computed using both the highest three consecutive years' Average Final Compensation (AFC) and the actual number of years of accumulated creditable service. For any individual who became or becomes a member of one of the pension systems on or after July 1, 2011, pension allowances are computed using both the highest five consecutive years' AFC and the actual number of years of accumulated creditable service. Various retirement options are available under each system which ultimately determine how a retiree's benefit allowance will be computed. Some of these options require actuarial reductions based on the retiree's and designated beneficiary's attained age and similar actuarial factors. The member contribution rate was increased for members of the Employees' Pension System from 5% to 7% on July 1, 2011, and from 4% to 6% in fiscal year 2013. In addition, the benefit attributable to service on or after July 1, 2011 in many of the pension systems now will be subject to different cost-of-living adjustments (COLA) that are based on the increase in the Consumer Price Index (CPI) and capped at 2.5% or 1.0% based on whether the market value investment return for the preceding calendar year was higher or lower than the investment return assumption used in the valuation. A brief summary of the retirement eligibility requirements of and the benefits available under the various systems in effect during fiscal years 2019 and 2018, is as follows:

Service Retirement Allowances

A member of the Employees' Retirement System is generally eligible for full retirement benefits upon the earlier of attaining age 60 or accumulating 30 years of creditable service regardless of age. The annual retirement allowance equals $1/55$ (1.81%) of the member's AFC multiplied by the number of years of accumulated creditable service. An individual who was a member of the Employees' Pension System on or before June 30, 2011, is eligible for full retirement benefits upon the earlier of attaining age 62, with

specified years of eligibility service, or accumulating 30 years of eligibility service regardless of age. An individual who became or becomes a member of the Employees' Pension System on or after July 1, 2011, is eligible for full retirement benefits if the member's combined age and eligibility service equals at least 90 years or if the member is at least age 65 and has accrued at least 10 years of eligibility service. For most individuals who retired from the Employees' Pension System on or before June 30, 2006, the annual pension allowance equals 1.2% of the member's AFC, multiplied by the number of years of creditable service accumulated prior to July 1, 1998, plus 1.4% of the member's AFC, multiplied by the number of years of creditable service accumulated subsequent to June 30, 1998. With certain exceptions, for individuals who are members of the Employees' Pension System on or after July 1, 2006, the annual pension allowance equals 1.2% of the member's AFC, multiplied by the number of years of creditable service accumulated prior to July 1, 1998, plus 1.8% of the member's AFC, multiplied by the number of years of creditable service accumulated subsequent to June 30, 1998. Beginning July 1, 2011, any new member of the Employees' Pension System shall earn an annual pension allowance equal to 1.5% of the member's AFC multiplied by the number of years of creditable service accumulated as a member of the Employees' Pension System. Exceptions to these benefit formulas apply to members of the Employees' Pension System, who are employed by a participating governmental unit that does not provide the 1998 or 2006 enhanced pension benefits or the 2011 reformed pension benefits. The pension allowance for these members equals 0.8% of the member's AFC up to the social security integration level (SSIL), plus 1.5% of the member's AFC in excess of the SSIL, multiplied by the number of years of accumulated creditable service. For the purpose of computing pension allowances, the SSIL is the average of the social security wage bases for the past 35 calendar years ending with the year the retiree separated from service.

Vested Allowances

Any individual who was a member of the State Retirement and Pension System on or before June 30, 2011 (other than a judge or a legislator), and who terminates employment before attaining retirement age but after accumulating 5 years of eligibility service is eligible for a vested retirement allowance. Any individual who joined the State Retirement and Pension System on or after July 1, 2011 (other than a judge or a legislator), and who terminates employment before attaining retirement age but after accumulating 10 years of eligibility service is eligible for a vested retirement allowance. A member who joined after June 30, 2011 and terminates employment prior to attaining retirement age and before vesting receives a refund of all member contributions and interest.

Early Service Retirement

A member of the Employees' Retirement System may retire with reduced benefits after completing 25 years of eligibility service. Benefits are reduced by 0.5% per month for each month remaining until the retiree either attains age 60 or would have accumulated

30 years of creditable service, whichever is less. The maximum reduction for an Employees' Retirement System member is 30%. An individual who was a member of the Employees' Pension System on or before June 30, 2011, may retire with reduced benefits upon attaining age 55 with at least 15 years of eligibility service. Benefits are reduced by 0.5% per month for each month remaining until the retiree attains age 62. The maximum reduction for these members of the Employees' Pension System is 42%. An individual who became or becomes a member of the Employees' Pension System on or after July 1, 2011, may retire with reduced benefits upon attaining age 60 with at least 15 years of eligibility service. Benefits are reduced by 0.5% per month for each month remaining until the retiree attains age 65. The maximum reduction for these members of the Employees' Pension System is 30%.

Disability and Death Benefits

Generally, a member covered under retirement plan provisions who is permanently disabled after 5 years of service receives a service allowance based on a minimum percentage (usually 25%) of the member's AFC. A member covered under pension plan provisions who is permanently disabled after accumulating 5 years of eligibility service receives a service allowance computed as if service had continued with no change in salary until the retiree attained age 62. A member (other than a member of the Maryland General Assembly or a judge, both of whom are ineligible for accidental disability benefits) who is permanently and totally disabled as the result of an accident occurring in the line of duty receives 2/3 (66.7%) of the member's AFC plus an annuity based on all member contributions and interest. Death benefits are equal to a member's annual salary as of the date of death plus all member contributions and interest.

Adjusted Retirement Allowances (as applicable)

The annual increases to pension allowances for Employees' Pension System retirees who were employed by a participating governmental unit that does not provide enhanced pension benefits are limited to 3% of the initial allowance. However, beginning July 1, 2011, for benefits attributable to service earned on or after July 1, 2011, in all of the systems except the judges' and legislators' systems, the adjustment is capped at the lesser of 2.5% or the increase in CPI if the most recent calendar year market value rate of return was greater than or equal to the assumed rate. The adjustment is capped at the lesser of 1% or the increase in CPI if the market value return was less than the assumed rate of return. In years in which COLAs would be less than zero due to a decline in the CPI, retirement allowances will not be adjusted. COLAs in succeeding years are adjusted until the difference between the negative COLA that would have applied and the zero COLA is fully recovered.

Maryland Health and Higher Educational Facilities Authority
Notes to Financial Statements
June 30, 2020 and June 30, 2019

Pension Liabilities, Pension Expense, and Deferred Outflow of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020 and 2019, the Authority reported a liability of \$450,631 and \$505,371, respectively, for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019 and 2018, respectively, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Authority's proportion of the net pension liability was based on a projection of the Authority's long-term share of contributions to the pension plan relative to the projected contributions of all participating governmental units, actuarially determined. At June 30, 2019 and 2018, the Authority's proportion was approximately 0.0021848% and 0.0024086%, respectively.

For the years ended June 30, 2020 and 2019, the Authority recognized pension expense of \$48,000 and \$49,966, respectively. At the measurement dates of June 30, 2019 and 2018, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Measurement Date of June 30, 2019	Deferred Outflows	Deferred Inflows
Changes in assumptions	\$ 9,033	\$ 12,264
Difference between actual and expected experience	-	33,999
Net difference between projected and actual earnings on pension plan investments	10,044	-
Change in proportion	13,104	71,461
Contributions subsequent to the measurement date	74,411	-
Total	\$ 106,592	\$ 117,724

Measurement Date of June 30, 2018	Deferred Outflows	Deferred Inflows
Changes in assumptions	\$ 16,121	\$ -
Difference between actual and expected experience	-	41,218
Net difference between projected and actual earnings on pension plan investments	21,851	-
Change in proportion	21,014	45,436
Contributions subsequent to the measurement date	44,865	-
Total	\$ 103,851	\$ 86,654

The deferred outflows of resources of \$74,411 and \$44,865 relating to contributions subsequent to the measurement dates of June 30, 2019 and 2018, respectively, will be recognized as a reduction of the Authority's net pension liability during the fiscal years ending June 30, 2021 and 2020, respectively. The deferred outflows and inflows of resources due to changes in assumptions, differences between actual and expected experience, change in proportion, and differences between projected and actual investment earnings represent the

Maryland Health and Higher Educational Facilities Authority
Notes to Financial Statements
June 30, 2020 and June 30, 2019

Authority's proportionate share of the unamortized portions of the System's original amounts. The deferred inflows and outflows related to non-investment activity for 2019, 2018, 2017, 2016 and 2015 are being amortized over the remaining service lives ranging from 5.00 to 5.87 years. The deferred outflows and inflows related to net differences in investment earnings for 2019, 2018, 2017, 2016 and 2015 are being amortized over a closed 5 year period. These unamortized amounts will be ratably recognized in pension expense over these service lives and the closed 5 year period.

The following table shows the aggregate amortization of these deferred outflows and inflows balances by year:

Fiscal Year Ended June 30	Deferred Outflows	Deferred Inflows	Net
2021	\$ 24,218	\$ 37,379	\$ (13,161)
2022	(680)	34,076	(34,756)
2023	4,288	23,870	(19,582)
2024	4,355	14,141	(9,786)
2025	-	8,258	(8,258)
Total	\$32,181	\$ 117,724	\$ (85,543)

Net Pension Liability

The components of the Authority's proportionate share of the System's net pension liability as of the measurement dates of June 30, 2019 and 2018 were as follows (expressed in thousands):

	<u>June 30, 2019</u>	<u>June 30, 2018</u>
Total pension liability	\$1,629	\$1,753
Less: Plan fiduciary net position	<u>1,178</u>	<u>1,248</u>
Net pension liability	<u>\$ 451</u>	<u>\$ 505</u>
Plan fiduciary net position as a percentage of total pension liability	72.3%	71.2%

Maryland Health and Higher Educational Facilities Authority
Notes to Financial Statements
June 30, 2020 and June 30, 2019

NOTE 7: CONDUIT DEBT

The Authority issues indebtedness on behalf of participating institutions. This indebtedness is generally in the form of bonds, notes or financing leases. Funds related to these financings are held in trust by various financial institutions. In general, public issues of bonds mature serially in varying annual installments. Certain issues include term bonds payable from annual sinking fund requirements. Notes generally consist of commercial paper that is expected to be paid with proceeds of refunding obligations. Bonds placed directly with banks or their affiliates generally require monthly payments based upon a mortgage-type amortization schedule. The lease and loan payments receivable by the Authority from the institutions correspond to the amortization of the respective bond and note issues. Under the Authority's capital lease financings, institutions may borrow funds to finance equipment and other purchases. Funds disbursed to participating institutions are repayable by the individual institutions and may be collateralized by security interests in the assets financed. The Authority may hold legal title to or a mortgage on the buildings and other assets financed by bonds for the benefit of institutions. Title to any buildings and other assets reverts to the institutions upon final payment of the respective bond issues or leases. Information pertaining to outstanding indebtedness is included in the additional information attached to these financial statements. The Authority is not obligated to pay principal or interest on bonds and notes issued by the Authority except from payments from participating institutions or revenues of the related projects.

The following is a summary of conduit debt activity for the years ended June 30, 2020 and June 30, 2019 (in thousands of dollars):

	<u>2020</u>	<u>2019</u>
Bonds outstanding at beginning of the fiscal year	\$8,903,807	\$9,093,371
Plus: Bonds issued during fiscal year	783,732	228,272
Less: Redemptions and refundings during fiscal year	(1,347,965)	(387,836)
<u>Bonds outstanding as of June 30, 2020 and June 30, 2019</u>	<u>\$8,339,574</u>	<u>\$8,903,807</u>

NOTE 8: SUBSEQUENT EVENTS

Events that occur after the balance sheet date but before the financial statements were available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the balance sheet date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the balance sheet date require disclosure in the accompanying notes. Management evaluated the activity of the Authority through September 2, 2020 (the date these financial statements were available to be issued) and concluded that no subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to the financial statements.

Additional Information – Funds Held by Third Party Trustees and Escrow Agents

The Authority is including the following additional information relating to funds held by third party trustees and escrow agents.

Trustees are appointed under the terms of the financing documents. Trustee responsibilities may include, but are not limited to: creation of funds to be held for bonds, notes or leases (“Trusteed Funds”), disbursements of proceeds, deposit of payments received from institutions, and payment of principal and interest on bonds, notes and leases.

The Authority maintains books of accounts for the Debt Principal Funds and the required Trusteed Funds of each of the issues of bonds, notes and leases outstanding. Trusteed Funds are maintained by third party trustees or other fiscal agents in accordance with the requirements of the respective bond, note and lease issue documents. The financial statements included in this additional information combine the Trusteed Funds of all bond, note and lease issues outstanding during the year. Interfund activity is eliminated in the combination.

The following is a description of the funds which relate to Trusteed Funds:

Construction Funds – Account for the receipt of bond, note and lease proceeds and other amounts, if any, and disbursement of monies held to pay for project costs, including construction and equipment purchases of participating institutions. All Construction, Cost of Issuance and Capitalized Interest Funds are included as Construction Funds.

Program Funds – Account for the receipt of bond proceeds and disbursement of monies specified as Program Funds in the Pooled Loan Program Series 1985A & B documents.

Debt Service Funds – Account for the receipt and disbursement of monies for the payment of interest and principal on bonds, notes and leases.

Debt Service Reserve Funds – Account for the receipt of bond proceeds and disbursement of monies held in reserve in compliance with certain bond resolutions and indentures. The fund balances are generally required to be maintained at amounts established under the bond resolution or indenture.

Project Reserve Funds – Account for the receipt and disbursement of monies held in reserve for improvements, major repairs, operations and arbitrage/rebate. The fund balances are established by the bond indentures and resolutions of certain issues. All Renewal and Replacement and Arbitrage Rebate Funds are included as Project Reserve Funds.

Redemption Funds – Account for the accumulation of monies not required by other funds for the eventual redemption or repurchase of bonds.

Additional Information

DEFEASED CONDUIT DEBT

Bonds have been issued for the purpose of refunding bonds that were issued by the Authority. In some cases, the proceeds of the refunding bonds were deposited into escrow trusts to be applied in future years to retire the refunded bonds. The trusts are held by independent trustees and are invested in obligations of the United States Government which mature and bear interest in such amounts and payable at such times as will be sufficient to pay the principal and interest of the defeased bonds when due upon maturity or redemption.

Defeased bonds outstanding at June 30, 2020 are as follows (in thousands of dollars):

Ascension Health Alliance Senior Credit Group, Series 2012B	\$ 86,025
Carroll Hospital Center Issue, Series 2012A - (partial redemption)	43,355
Charlestown Community Issue, Series 2010	111,070
Doctors Community Hospital Issue, Series 2010 - (partial redemption)	11,575
Doctors Community Hospital Issue, Series 2010	68,665
Frederick Memorial Hospital Issue, Series 2012A	86,290
Greater Baltimore Medical Center Issue, Series 2011	32,480
Greater Baltimore Medical Center Issue, Series 2012A – (partial redemption)	32,205
